

Product Information

CUDA II

Description

A high potency stripper, specially formulated to remove metallic-crosslinked polymer floor finishes.

Contains a combination of surfactants and alkaline salts, as well as an organic amine which is extremely active toward zinc in metallic polymer films, but does not have the strong odor or volatility of ammonia.

This product is nonflammable, biodegradable, and contains no phosphates.

Directions

Always test diluted product in an inconspicuous area to determine if floor surface is suitable for use of stripper. The use ratios given below are approximate, concentrations may have to be varied depending on age, number of coats and type of finish to be removed.

FLOOR FINISH STRIPPING

1. Prepare stripping solution by using 12 ounces (1½ cups) per gallon of water.
2. Apply solution liberally and be certain surface is completely covered.
3. Allow solution to remain on surface for 5 minutes or longer. (Do not allow stripper solution to dry on the floor.)
4. Machine scrub with proper pad.
5. Pick up solution with a mop or wet vac.
6. Scrub rinse well with clear water and pick up with wet vacuum or mop and allow floor to dry.

DEGREASING

Mix 4 ounces (1/2 cup) of this product with each gallon of water. Apply to the surface using a mop, sponge or sprayer. Agitate slightly. Pick up dirty solution, and rinse with water.

ATTENTION: Avoid contact with glass. If this product is allowed to dry on glass, a residue will be created which may not be removable. If accidentally splashed on glass, flush immediately with water before the product dries.

WARNING: SKIN AND EYE IRRITANT. Contains Monoethanolamine, Alkaline Silicates and Surfactants. Do not get in eyes, on skin or clothing. Harmful if swallowed. Do not take internally.

FIRST AID: For eyes, flush immediately with plenty of water for at least 15 minutes and get medical attention. For skin, wash thoroughly with water. If irritation persists, see a doctor. If swallowed, drink large quantities of water or milk. Get medical attention immediately.

Specifications

Type product	Alkaline stripper
Appearance	Clear, green
Odor	Mild
Weight per gallon	9.01 lbs.
Viscosity (cps.)	4.4 ± 1.0
pH (100%)	12.5 ± 0.5
pH (1% in tap water)	11.04 ± 0.2
Cloud point	30°F (max.)
Separation point	100°F (min.)
Freeze/thaw stability	3 cycles (with mixing)
Biodegradability	Complete
Coverage (12 oz./gal.)	2200 sq. ft. per gal.
