

# Product Information

## PENETRATING SILICONE SEALER

### Description

Tile Star Penetrating Silicone Sealer is a silicone resin designed to save the surface of ceramic and mosaic tile grout. It penetrates and helps prevent water absorption, which may cause grout failure. Silicone Sealer is also effective for outdoor use on brick and masonry.

NOTE: This product may enhance the color of the grout. If this is undesirable, apply a small amount in an inconspicuous area and allow to dry 48 hours.

Approximate coverage: Wall grout - 150 sq. ft. per quart  
Floor grout - 120 sq. ft. per quart

### Directions

Use full strength. Apply to grout lines with brush, sprayer or sealer roller. For glazed and unglazed tiles, remove any excess with a soft dry cloth and buff to a shine as required.

DISPOSAL NOTE: Cloths or absorbents used with this product are combustible and should be discarded in closed metal containers placed outdoors. Dispose of used product according to local regulations.

It is recommended that a curing time of 28 days be allowed on all new grout before applying Tile Star Penetrating Silicone Sealer.

**WARNING:** Combustible. Contains Petroleum Distillate. Keep away from heat, sparks and all flames, including but not limited to pilot lights. Open doors and windows for cross-ventilation. Close container after each use. Cloths used with this product are combustible and should be discarded in closed metal containers placed outdoors. Harmful Or Fatal If Swallowed. Do not take internally. Eye And Skin Irritant. Avoid prolonged or repeated contact with skin.

FIRST AID: If swallowed, do not induce vomiting. Call a physician immediately. If in eyes, flush thoroughly with water for at least 15 minutes, then see a doctor. For skin, wash with soap and water. If irritation persists, see doctor.

KEEP OUT OF REACH OF CHILDREN

### Specifications

Type product	Silicone resin
Appearance	Clear, colorless
Percent solids	3.0 ± 0.2
Odor	Petroleum solvent with slight vanilla scent
Viscosity (cps)	1.7
Flash point	150° F
