

Product Information

MIGHTY-FOAM

Description

This product is specifically designed for wet scrubbing of all types of synthetic carpeting such as acrylic, polyester, nylon, etc. Not to be used on 5th Generation or wool carpets.

There is little need for pre-spotting due to the powerful cleaning and brightening action of this concentrated product.

This product is biodegradable and phosphate free.

Directions

NOTE: Test a small area of the carpet to be cleaned with a towel dampened with shampoo to make sure the color is fast.

1. Vacuum the carpet to remove surface soil.
2. Add 8 oz. (1 cup) to each gallon of warm water.
3. If the brush is dry, begin shampooing with the wheels of the machine down. This allows better control until the carpet and brush begin to be slippery with foam. Raise the wheels of the machine and continue shampooing being careful not to use excess solution and soak the carpet.
4. When approximately 50 sq. ft. have been covered, stop shampooing. Pick up excess moisture with a vacuum and set the pile in one direction with a pile brush.
5. Continue shampooing as described above until entire area has been completed.
6. Make sure that adequate ventilation is provided to promote quick drying.
7. If it is necessary to replace furniture before carpet is completely dry, use carpet protectors under all legs to prevent rust and varnish stains.
8. When carpet is completely dry, vacuum to remove any dried foam which may remain.
9. To clean upholstery, use 16 oz. (2 cups) for each gallon of warm water. Shampoo with foam only.

WARNING: SKIN AND EYE IRRITANT. Contains Alkaline Silicates, Surfactants, and Glycol Ether Solvents. Do not get in eyes, on skin or clothing. Harmful if swallowed. Do not take internally.

FIRST AID: For eyes, flush immediately with plenty of water for at least 15 minutes and get medical attention. For skin, wash thoroughly with water. If irritation persists, see a doctor. If swallowed, drink large quantities of water or milk. Get medical attention immediately.
