

Product Information

CUDA II

Description

A high potency stripper, specially formulated to remove metallic-crosslinked polymer floor finishes.

Contains a combination of surfactants and alkaline salts, as well as an organic amine which is extremely active toward zinc in metallic polymer films, but does not have the strong odor or volatility of ammonia. This product is nonflammable and contains no phosphates.

Directions

Always test diluted product in an inconspicuous area to determine if floor surface is suitable for use of stripper. The use ratios given below are approximate, concentrations may have to be varied depending on age, number of coats and type of finish to be removed.

FLOOR FINISH STRIPPING

1. Prepare stripping solution by using 12 ounces (1½ cups) per gallon of water.
2. Apply solution liberally and be certain surface is completely covered.
3. Allow solution to remain on surface for 5 minutes or longer. (Do not allow stripper solution to dry on the floor.)
4. Machine scrub with proper pad.
5. Pick up solution with a mop or wet vac.
6. Scrub rinse well with clear water and pick up with wet vacuum or mop and allow floor to dry.

DEGREASING

Mix 4 ounces (1/2 cup) of this product with each gallon of water. Apply to the surface using a mop, sponge or sprayer. Agitate slightly. Pick up dirty solution, and rinse with water.

ATTENTION: Avoid contact with glass. If this product is allowed to dry on glass, a residue will be created which may not be removable. If accidentally splashed on glass, flush immediately with water before the product dries.

Causes severe skin burns and eye damage.

Wear protective gloves (impervious), and eye protection (such as chemical goggles).

Wash contaminated body parts thoroughly after handling.

FIRST AID

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

IF ON SKIN (OR HAIR): Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse.

IF SWALLOWED: Rinse mouth Do NOT induce vomiting.

IF INHALED: Remove person to fresh air and keep comfortable for breathing.

STORAGE: Store locked up.

DISPOSAL: Dispose of container in accordance with federal, state and local regulations.

KEEP OUT OF REACH OF CHILDREN KEEP FROM FREEZING FOR INDUSTRIAL & INSTITUTIONAL USE ONLY

WARNING: This product can expose you to Diethanolamine, which is known to the State of California to cause cancer. For more information go to www.P65Warnings.ca.gov.

Specifications

Type product	Alkaline stripper	pH (1% in tap water)	11.04 ± 0.2
Appearance	Clear, green	Cloud point	30°F (max.)
Odor	Mild	Separation point	100°F (min.)
Weight per gallon	9.01 lbs.	Freeze/thaw stability	3 cycles(with mixing)
Viscosity (cps.)	4.4 ± 1.0	Biodegradability	Complete
pH (100%)	12.5 ± 0.5	Coverage (12 oz./gal.)	2200 sq. ft. per gal.
