

Product Information

JUICE & DYE STAIN REMOVER

Description

This product has been specially formulated to remove dye stains from food and beverages including juices and other colored drinks and most wine stains. This product contains no bleaches or chlorinated solvents.

Directions

1. Test carpeting for colorfastness in an inconspicuous area.
2. Apply spotter to a clean, white cloth or cotton swab.
3. Using wetted cloth or swab, apply spotter to stain from the outside edge towards the center of the stain.
4. Blot with clean, white cloth or paper towel by placing the folded towel over the dampened area and standing on it. Reposition to a dry, clean area of the towel and repeat until stain is removed.
5. Rinse the cleaned area with a small amount of clean water and blot dry.
6. Repeat if necessary but do not overuse spotter and be sure not to saturate carpeting.
7. Allow area to dry completely before using.

CAUTION: Avoid contact with eyes.

FIRST AID: If product gets in eyes, immediately flush with plenty of water for at least 15 minutes and seek medical attention if discomfort continues. For skin, wash thoroughly with water.
