

Product Information

PET STAIN & ODOR REMOVER

Pet Stain & Odor Remover has been specially formulated to remove stains and odors caused by pet and human feces, urine, vomit and other organic related stains and odors. This product contains no bleaches or chlorinated solvents.

Directions:

1. Remove any organic materials from carpet surface. In the case of wet urine, blot before spotting by taking a clean, white cloth or paper towel and placing the folded towel over the dampened area and standing on it. Reposition to a dry, clean area of the towel and repeat until the majority of the urine is removed.
2. Apply Pet Stain & Odor Remover directly to the stain and allow to stand for a few minutes.
3. Blot with clean, white cloth or paper towel by placing the folded towel over the dampened area and standing on it. Reposition to a dry, clean area of the towel and repeat until stain is removed.
4. If odors are still present, apply a generous amount of Pet Stain & Odor Remover to the area after spotting and allow to air dry.
5. If odors are not present rinse the cleaned area with a small amount of clean water and blot dry.
6. Repeat if necessary and allow to dry completely before using.

CAUTION: Avoid contact with eyes. Product may cause eye irritation.

FIRST AID: If product gets in eyes, immediately flush with plenty of water for at least 15 minutes and seek medical attention. For skin, wash thoroughly with water. If irritation persists, seek medical attention.
