

Product Information

WATER BASED SILICONE SEALER

Description

Tile Star Water Based Silicone Sealer is a silicone resin designed to protect the surface of new or old wall and floor grout. It protects and helps prevent liquid absorption, which may cause grout failure and staining.

New installations can be sealed after 48 hours. Compatible with all grout colors. (This product may enhance the color of the grout. If this is undesirable, apply a small amount in an inconspicuous area and allow to dry 48 hours as a test.)

Approximate coverage: Sanded grout - 180 sq. ft. per quart
Unsanded grout - 250 sq. ft. per quart

Directions

Use full strength. Apply to the grout lines with a brush, cloth or low pressure sprayer. For glazed or unglazed tiles, remove excess, before it dries, with a soft dry cloth and wipe to a shine, being careful not to disturb the grout lines.

If excess sealer is allowed to dry on the surface of the tile a whitening or film will form. This can be difficult to remove, but using a sponge or cloth moistened with water, scrub the tiles as soon as possible.

- **Do not use on unsealed marble or agglomerate tiles.**
- **Avoid contact with glass.** If this product is allowed to dry on glass a residue may be created which is not removable. If accidentally splashed on glass, flush immediately with water.

DANGER

Causes severe skin burns and eye damage.

Causes serious eye irritation.

Harmful if swallowed.

Wear protective gloves/protective clothing/eye protection/face protection. Wash thoroughly after handling.

Do not eat, drink or smoke when using this product.

FIRSTAID

If swallowed: Rinse mouth. Do NOT induce vomiting.

If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.

Wash contaminated clothing before reuse.

If inhaled: Remove person to fresh air and keep comfortable for breathing. Immediately call a poison center/doctor.

Specific treatment: See Sec. 4.

If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Immediately call a poison center/doctor.

Do not take internally.

Storage

Store locked up.

Disposal

Dispose of contents/container in accordance with local, state and federal regulations.
